My Timesheet

This section provides the information regarding my timesheet on the Contract Application requested by the client. The following will show images based on my times I spent on my work on different files. My file names are index.html, style.css and script.js. The total amount of time I spent on this project was 12 Hours.

JOBOX

Timesheet

Name: Sihle Mbonani

Student ID: 1935152

Date	Start Time	End Time	Total Hours	Description
05/02/2024	23:00	01:30	2.h hours	Research done for the project
06/02/2024	11:30	16:30	5 hours	Created my files and started adding and testing the code. Created my GitHub repository
06/02/2024	19:00	23:53	4 hours, 53 minutes	Worked on populating the dynamic values to the form, added download function. Fixed the design layout. Made my final commits to my repository

The following images provide a detailed looked at the I started and stopped with the my code in Visual Studio Code.

Total Hours Worked: [12 Hours]

Project/Task Description: The Assignment: Build a Contract Application.

In order to solve Lesedi's problem, you are required to **build a web application that allows Lesedi to use the input boxes, in the contract template, to fill the dynamic values**. In addition, **you must style the contract to closely resemble the 3-page contract template that Lesedi provided.**
